# Enhance patient-care quality with the latest evidence

As today's landscape of patient care continues evolving, increased pressure to reduce inpatient stays and readmissions, combined with financial penalties for noncompliance with federal regulations, creates a particular challenge for healthcare quality professionals.

How can you provide clinicians with the latest evidence-based information in a consistent, point-of-care format to ensure standardization of care and alignment with federal regulations that support quality patient outcomes?

The answer is **Lippincott Solutions**, a suite of online, evidence-based software applications that allows organizations to make evidence actionable at the bedside and improve patient outcomes by standardizing care, saving time, and streamlining workflows. Products include **Lippincott Procedures**, **Lippincott Advisor**, and **Lippincott Professional Development Collection**. Together these products will enable you to:

- support evidence-based practice
- standardize care
- save time
- streamline workflows.

## Lippincott Procedures

**Lippincott Procedures** is an online, evidence-based, step-by-step guide to nearly 1,700 procedures and skills from a wide variety of settings and specialties, including numerous procedures specifically related to quality and compliance.

Clinicians use the product to deliver standardized, evidence-based best practices at the bedside, while clinical educators use the competency management tools, such as procedure tests and skills checklists, to validate clinical competency for such procedures as:

- fall prevention
- pressure ulcer prevention
- hand hygiene
- peripherally inserted central catheter (PICC) insertion
- safe medication administration
- and many more!

# Standardize care and improve quality patient outcomes

## *Lippincott Advisor*

*Lippincott Advisor* is the only clinician-based resource designed for the online point-of-care environment that provides instant, 24/7 access to more than 12,000 original, synthesized, evidence-based content entries and patient handouts.

Using a powerful search engine and intuitive user interface, *Advisor* promotes critical thinking and provides clinical decision support through immediate access to answers on questions about diseases, conditions, signs and symptoms, diagnostic tests, treatments, care plans, and an entire section devoted to quality and safety initiatives, categorized as follows:

- Core Measures
- Hospital-acquired Conditions
- National Guidelines
- Sentinel Events.

## *Lippincott Professional Development Collection*

*Lippincott Professional Development Collection* provides a single-source, evidence-based solution for integrated nursing competency and staff education for institutions, with eligibility for continuing education (CE) units. With over 300 eCourses, including a set of programs co-developed with JCR (Joint Commission Resources), the library helps to improve competency through knowledge, skills enhancement, review, and testing.

The product features a comprehensive program for patient safety and compliance that aligns with National Database of Nursing Quality Indicators (NDNQI). Courses include:

- Root Cause Analysis
- Preventing Venous Thromboembolism after Knee or Hip Replacement
- Patient and Family-Centered Care
- Central Line–Associated Bloodstream Infection (CLABSI)
- CAUTI Prevention <sup>JCR</sup>
- Pressure Ulcer Prevention and Care <sup>JCR</sup>
- Hand Hygiene Compliance <sup>JCR</sup>
- Patient Safety: Improving Caregiver Communication <sup>JCR</sup>
- Reducing the Risk of Healthcare Acquired Infections <sup>JCR</sup>
- Reducing the Risk of Patient Falls <sup>JCR</sup>.
